## **1. Necessity of the Project:**

- Municipality Hospitals function mainly for the under privileged. But is ill equipped to provide such services. Even, if equipped, they are not professionally managed. At the same time we forget the plight of the middle class for the high cost charged by mushrooming nursing homes. They can neither go to a Municipality Hospital for its ill reputation as a poor man's hospital.
- It is this thinking which can be changed by taking some extra ordinary measures by the Municipality Board.
- Panihati Municipal area has about 4 lakhs population with another huge population in adjoining area. The place has a few nursing homes in its area but at high cost.
- The Project cost with about 40 cottahs land will have its own MRI, CT Scan, Cath Lab, Dialysis, ICCU, Modular OT, GNM nursing college besides 124 bedsits.

*This dream project will be the first municipality hospital in India to have corporate look and almost every aspect of medical advancement under one roof.*

*On completion of the project it will not only allow its citizens to avail medical services at an affordable prices but with competition to other nursing homes they will improve their service.*

- Medicines specially life saving drugs are at times very costly. Normal pharmacies sale at MRP. But municipality being a semi Government organization can sale at normal profits above the prices offered by the distributor. So low prices of medicine can also be offered in the MATRI SADAN pharmacy.
- Higher surgeries can be performed in the MATRI SADAN hospital at very reasonable cost.
- Unit opposite Panihati Municipality will serve as OPD unit with pathology collection centre. So MATRI SADAN, ESOPD and unit on BT Road will function as one unit.

*All the points if considered together can only raise the question why was the project not implemented so long.*
